DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 the “pyramid filtered output signals” of lines 6 and 8 are indefinite because the input signal to the respectively recited structure fails to be recited. To what disclosed structure does the “two-dimensional pyramid filter” of lines 9-10 of claim 1 correspond? Claim 1 is also incomplete because means to generate to required “signal sample matrices”. of line 10 fails to be recited. Finally, in claim 1, the “wherein” phrase of the last three lines is the recitation of function without adequate structural basis. Claims 12, 16 and 20 contain deficiencies similar to claim 1. The phrase “the pyramid filtered output signals”, claim 2, lines 6-7 and claim 11, line 5, lack clear antecedent basis. To what disclosed structure does the “eight one-dimensional pyramid filters” of claim 5 correspond?

Allowable Subject Matter

2. Claims 1-23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
